## Education

**2017** – defended the doctorate in pharmacy with topic “Complex pharmacognostic study of *Rosaceae* plant raw materials and development of phytomedicines on their base” specialty – “Pharmaceutical Chemistry and Pharmacognosy”

**1997** – defended of PhD on “Pharmacognosy study of common beet”

specialty – “Pharmaceutical Chemistry and Pharmacognosy”

**1981-1986**

Kharkiv Pharmaceutical Institute (Ukraine), specialty – “Pharmacy”

## Academic degree

Doctor of Science (Pharmacy)

## Employment

National University of Pharmacy, Kharkiv, Ukraine,

Department of Chemistry of Natural Compounds

Associated Professor

## Scientific interests

- Isolation substances with pharmacological interest (anti-inflammatory, antimicrobial, antifungal); structure-activity relationships
- Isolation of new lead compounds with pharmaceutical, nutraceutical and cosmetic interest from natural sources (plants) originated from Ukraine and global biodiversity.
- standardization of raw material and preparations of plants family *Rosaceae*
- Investigation of the “Green” chemistry and Laboratory research on extraction of high added value natural products.

## Scientific works

Author and Co-Author of more than 100 scientific and methodological works, including 8 patents, 44 articles, 50 theses, 2 informational letters, 2 textbook, 3 tutorials, 2 methodical recommendations, and 14 articles in Pharmaceutical Encyclopedia.
